

Dear Sir,

Please be advised that at its meeting on 19 December 2017, The District Council of Elliston resolved:

**Cr Hancock moved:**

**2017.174**

In light of the State Government's support for alternative energy solutions, the District Council of Elliston:

- rejects Electranet's Option 4B proposal to upgrade its transmission lines because the proposal does nothing to improve the reliability of future energy prospects of the Western Eyre Peninsula; and,
- supports the Energy Security for South Australia's directions and proposals to install a large 500kv network across Eyre Peninsula (coupled with new interconnectors), which will improve the energy reliability for the Eyre Peninsula and position the region for future mining and energy developments. Council further supports the Eyre Peninsula becoming a major Renewable Energy Zone and a major exporter of renewable energy throughout South Australia and Australia, creating major economic benefit to the region.

**Seconded by Cr Hitchcock CARRIED**

For more information or clarification please contact the Chief Executive Officer, Phil Cameron on 08 8687 9177.

Regards,

Jill Leonard  
Rates & Revenue/Administration Officer
